

Supplier Capabilities Spotlight

A-B-C Packaging Machine Corporation

We help dairy processors with packaging machines for a wide range of products and packages including bottled milk and flavored milk beverages, packaged cheeses and dairy novelties, ice cream cartons, powdered milk products and much more. From container depalletizing, through case erecting, sealing and palletizing, our machines ensure top production and productivity from your line. Our customers rely on A-B-C for **quality machines that stand the test of time, supported by expert service and support for the life of their equipment.**

Designed for your changing needs

We're working to help you meet today's packaging challenges with machines that offer **greater flexibility, faster changeover, and wider product ranges**, while making operation simpler and more intuitive than ever before.

Dedicated to your success

You can rely on A-B-C for **service by factory-trained personnel** who are dedicated to serving you quickly and to your complete satisfaction. All A-B-C service technicians are PMMI Certified Trainers who offer hands-on training to increase employee confidence and proficiency.

Depalletizer for plastic, glass & composite containers

With **over 74 years of serving the industry**, we have earned many loyal customers, and repeat business is the cornerstone of our success. When it comes to packaging machines, we know the business. We'd like the opportunity to earn yours.
