Eriez

Best-in-Class Performance Metal Detector!

Eriez' all new Xtreme® Metal Detector sets the standard for "best-in-class" performance and offers the greatest dollar-for-dollar value of any detector on the market. This feature-rich, multi-frequency unit achieves the highest levels of sensitivity detecting small ferrous and nonferrous metal contaminants in sanitary and non-sanitary environments.

Best-in-Class Features:

- Xtreme Sensitivity
- Stainless Steel Wash Down Design
- Multi-frequency Technology
- Four Levels of Password Protection
- Auto Set-up and Product Learning
- USB and Ethernet Connections
- Single Point Electronics
- State-of-the-Art Software
- Food-grade Polypropylene Belt

Eriez also offers a Quick Ship Metal Detector program in multiple configurations of apertures and conveyor widths.
