

Supplier Capabilities Spotlight

iTi Tropicals, Inc.

iTi Tropicals, Inc. has led the way in tropical fruit juices, concentrates and purees since its inception in 1988. The visionary behind the company, Gert van Manen, founded iTi because he believed that US beverage consumers could be enticed to move from mostly soda, orange and apple juice to tropical fruit beverages.

iTi's Lawrenceville, NJ headquarters is situated in Amsterdam canal house inspired buildings where customers may visit and utilize the company's R&D kitchen. The iTi Tropicals team and the workspace are catalysts for innovation, encouraging customers to discover new applications and formulations. iTi's worldwide network of processors is a rich source of product. The iTi team continuously travels the world visiting the plantations and processing plants to understand every aspect of production

from weather and crop forecasts to competition and cultural issues.

iTi Tropicals sees a bright future for the company and for demand for its core products:

- Acai**
- Acerola**
