

## SPX

Celebrating 100 years in 2010, APV is a global supplier of high quality process components and engineered systems for the dairy, food, beverage, and pharmaceutical industries. Our portfolio includes a range of homogenizers, plate heat exchangers, pumps, valves, and process systems. Our focus is on helping customers improve their plant's performance and profitability and provide an end-to-end approach, from developing a deep understanding of the customer's business to designing solutions that meet specific requirements.

**Bran+Luebbe** is a worldwide leader in metering, analyzing and processing liquids with expertise of more than 70 years. The name Bran+Luebbe stands for:

High quality and precision of metering and process pumps, process systems and analyzing equipment.

Pioneering technological innovations and comprehensive process and applications know-how in the industry.

**Johnson Pump** has over 75 years of experience providing solutions for liquid transport needs ensuring the highest quality standards. Develops and manufactures positive displacement, gear, and flexible impeller pumps for the food,

dairy, beverage, and pharmaceutical markets. Johnson Pump is certified to ISO 9001 and 14001.

**LIGHTNIN** has over 80 years of unrivaled experience in mixing technology, process knowledge, and technological innovation.

LIGHTNIN enjoys a global reputation for durable, long-lasting mixers, agitators, aerators, and flocculators for fluid process systems.

Offers a full spectrum of impeller designs for diverse applications, as well as worldwide service networks for mixer & gearbox repair including replacement parts programs.

For more than a century, **Waukesha Cherry-Burrell** has been a prominent

manufacturer of fluid handling and process equipment.

WCB and its network of stocking distributors are dedicated to raising productivity, product quality and profitability for their equipment and systems customers.

Equipment includes positive displacement pumps, centrifugal pumps, mix proof and single seat valves and heat exchangers.

## WCB-Flow Products AN SPX BRAND

From its conception, **WCB-Flow Products** has maintained a strict adherence to the highest manufacturing standards in the marketplace providing high-quality fittings, clamps, and manual valves.

Implementation of lean manufacturing techniques, allows for quick deliveries of standard and specialty product orders.

Website capability of accessing material test results to trace the origins of the materials used in our products.

Specialty fabricated fittings and resale tubing are also available.
