

Blackhawk Molding Co., Inc.

Blackhawk Molding Co., Inc., founded in 1949, is based outside Chicago in Addison, Illinois. Blackhawk is one of the few remaining original privately owned cap-manufacturing companies that has survived and grown through the past fifty-nine years.

A leader in the industry, Blackhawk Molding has pioneered many advances. Our standard of excellence has led to many innovations, such as, the patented Super-Quad STS Capper System for small-package caps, and the patented Kleen-Peel adhesive-free label for caps used on large-capacity water bottles. Our Partnership in Perfection philosophy coupled with our renowned customer technical training programs creates a win-win environment in the marketplace.

Blackhawk has production facilities located in Illinois, Arkansas, Nevada, United Kingdom and soon in Continental Europe. Our product design and engineering group, along with tool and mold construction facilities, are based at our corporate headquarters in Illinois. Blackhawk's commitment to service is unsurpassed.

BLACKHAWK

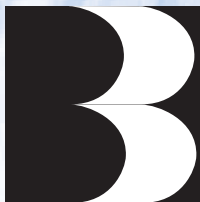

Excellence Innovation Commitment

At Blackhawk these are much more than just words. Every Blackhawk cap is a precision engineered product designed for high performance and trouble free application. As bottling methods change and improve, we reengineer and improve our caps to help you maximize the advantages of new technologies.

Our newest plant in Reno, Nevada is evidence of our ongoing commitment to serve and grow with the dairy bottling industry.

Our Partnership in Perfection philosophy coupled with our renowned customer technical training programs creates a win-win relationship with our customers.

Call, fax or e-mail us for more information.
We're all you need to cap your product. We're Blackhawk.
