

## Gram Equipment

### *Ice cream the way you like it...*

At Gram Equipment, we exert ourselves to supply customers with high quality production machinery and flexible solutions, enabling them to manufacture ice cream products exactly the way they wish to.

Gram Equipment is one of the world's leading manufacturers of equipment for industrial ice cream production. With an extensive global network of subsidiary companies, agents, Sales & Service offices and 170 employees worldwide, Gram Equipment provides manufacturers of ice cream and other food products with the best possible basis for meeting consumer demands.

We have a fully comprehensive range of equipment, from individual process lines to complete production facilities and from mixing equipment to final

packaging facilities. And we can deliver customized design of complete production lines for large scale production.

We constantly strive to extend our range of possible solutions and our aim is to ensure that our customers always

can respond swiftly to the rapidly changing demands of markets and consumers all over the world.

We put the best ideas into practice to ensure that ice cream manufacturers can turn their ideas into new products, new processes and new ways of making, shaping and packaging ice cream. The technology from Gram Equipment enables ice cream manufacturers to delight consumers all over the world with attractive, tasty ice cream products.

## New Stormax Line-Up

### *Gram Equipment*

The Stormax AV – Automatic Vertical Inserter from Gram Equipment is a fully automatic stick inserter for rotary and in-line bar freezers like RIA, Rollo, Migea, TechnoStick, RotoStick, Walzer, Eskimo Line, Polo and Versaline.

Designed and produced with know-how and technology derived from the well known Si3 from Stormax and Mi3 from Norwood to ensure a next generation high performance stick inserter with high reliability and low maintenance just to mention some of the key benefits.

If the need for handling custom sticks emerges, a semi-automatic version is available. The semi-automatic Stormax SV can be adapted to handle almost all kind of custom sticks.
