H.S. Crocker Co.

H.S. Crocker Co., - Offering a Higher Standard of Printed Packaging.

It's no accident H.S. Crocker Co., has been successfully operating since 1856.

H.S. Crocker is 100% Employee owned with participation at all levels through team driven production.

All our employees work together in our plant locations: Huntley, IL, Valley Forge and Exton, PA, all locations adhere to the strict standards of quality as prescribed by the Crosby Quality College.

The Huntley facility, well known for Lidding structures, also produces: Push thru Foil for Blister Paks available with fast turnaround and offered in 20 micron. In-mold labels, and various Specialty Printed Projects for a wide range of applications.

Printing on 9 color Flexographic presses from 13"-32" with front and back print capabilities.

Regular USFDA, IL FDA and Pharmaceutical audits keep the Huntley facility on the cutting edge of traceability, which identifies every step in the production process. Recently the Huntley plant became compliant to all HACCP guidelines.

H.S. Crocker Co. has developed several new non-foil lidding structures to seal various portions size containers and polymers. For years, customers have asked for a pre die-cut lid other than foil. Metal Detection, Microwaveable, Tear and Puncture Resistance are just a few of the advantages associated with these new materials.

CUP LINE: H.S. Crocker offers portion cups (thermoformed and injection molded) in a wide variety of sizes and designs. Let H.S. Crocker develop your new product-specific cup at very competitive cost in PS, PP with and without Barriers.

NEW PRODUCT LINE: H.S. Crocker has both foil and non-foil lidding available in Daisy Chain. Both cups and lidding can be offered to you.

H.S. Crocker has positioned themselves as a leader in the Printed Packaging Industry by applying their 150 years of experience towards today's markets. Through the addition of new product lines and redeveloping old lines, H.S. Crocker will continue to offer a Higher Standard of Printed Packaging.
