

Paul Mueller Company

Paul Mueller Company is your full service provider. Since our inception in 1940, Mueller® has evolved into a global process solution provider. Today, Paul Mueller Company is a certified ISO 9001:2000 company with nearly one million square feet of manufacturing space under roof. Our products are used in over 100 countries in a wide variety of applications. We offer a full range of tanks/vessels from shop fabricated alloy vessels through 20 feet in diameter to field fabricated vessels up through 2,000,000 gallons, but we do more than tanks — we provide process solutions. We offer integrated systems, modular fabrication, field construction, plant maintenance and repair, and complete turnkey project execution. Mueller delivers outstanding equipment and unique solutions to the process industries with our technical expertise, innovative engineering, and manufacturing resources. We know that building a quality product starts from the ground up. Our sole purpose is to improve profit performance for our customers through our products and service offerings. Mueller has been built by focusing our extensive resources, process experience, and craftsmanship on solving the processing needs of our customers.

Our facility is equipped with metal cutting, forming, and welding equipment which provide us with the most state-of-the-art fabrication and machining capabilities available today. We procure steel direct from the mill and fabricate all of our own structural components.

Mueller products are made by our skilled craftsmen, whose average experience exceeds 15 years. On any given day, their talent and pride of workmanship can

be observed in our production bays. Our process is well defined, and Mueller team members fully understand the importance of their individual roles in producing a quality product. Our central United States production facility lowers your transportation costs and speeds the delivery of your product to your location.

Our field construction capabilities allow us to build on-site, which offers our customers more versatility and flexibility.

Our own trucking company provides you with competitive delivery rates on standard products. We are able to provide dedicated handling for large or critical delivery items and are able to work with you directly to resolve any transportation issues.
