

# Polypack, Inc.

## One Stop for All Your Shrink Packaging Needs...

Over the past 40 years, Polypack, Inc. has become a leader in manufacturing packaging equipment. Polypack's shrink packaging equipments and tray wrappers are built with the best materials and components available including stainless steel construction to offer a long life span, superior performance, durability and reliability.

Polypack offers a diverse range of packaging equipment. These designs include total closure forming head (horizontal, form, fill and seal) shrink wrappers, high speed sleeve wrap (bullseye), print registered film wrappers, fully automatic tray loader/formers, label orientation and robotic pick and place equipment such as our patented ROKH system.

All our shrink wrappers and end-of-line packaging equipment are engineered to shrink wrap products of various shapes and sizes, individually or in multipack configurations, unsupported, tray or pad supported.

### Key features:

- Unique patent pending clear or colored plastics pads
- No glue needed; eliminate hot-melt dispensers and messy glue
- All in one machine
- Integrated pad dispensers
- Environmentally Friendly

### Looking for Film?

Film Source International your choice for premium printed, clear shrink film and

stretch wrap film. With over 40 years in the industry and our packaging equipment experience, Film Source International understands there are infinite packaging

applications and every customer's needs are different. That is why we produce films based on the specific requirements of individual customers.
