At **Templar Food Products**, we live by a simple philosophy. Do one thing and be the best at it. Since 1971, Templar Food Products has been devoted to the development of the finest tea products in the world. We have never felt more strongly about our way of doing business than we do today. Integrity matters and always will at Templar.

Though more than 30 years have passed since Templar worked on the research and development of instant teas for dairies, we continue to demand the highest standards in both ingredient and service. We spend years growing not just tea, but relationships with our customers in order to build a solid foundation of partnership and trust. No short cuts and no tricks. We are a staff of quality people who believe passionately that the company offers tea products unlike anything else in the market.

We promise to provide a consistent source of breakthrough flavor ideas, rigorous quality, microbiological control and consistent attention to the challenges faced by you, the processor. We believe in our products and we believe they will help you build strong brands and repeat customers.

We thank all our customers and pledge to continue to do our best for the dairy industry. Templar Food Products. It all begins with tea.

---
