

Ampco Pumps Company

Ampco stainless steel pumps have been in use in dairy and food processing plants since 1957 when a Z Series flanged unit was installed in a first generation CIP system. The initial acceptance of these units, based on reliability and outstanding performance, encouraged Ampco to offer sanitary connections. In the 1980's Ampco's D Series pumps set the standard for CIP and COP applications. Today we have considerably more to offer.

****New in 2011****

Complete ZP Series

* Ampco has recently introduced our new ZP Series of positive displacement pumps

- The ZP1 and ZP2 pumps are dimensionally and hydraulically interchangeable with competing brands
- Both ZP1 and ZP2 models can be rebuilt with over-sized rotors to extend the pump's useful life. We offer several rebuild options.
- The ZP Series was designed to include the most popular features of leading pd pumps
- **Most significantly, all new ZP Series pumps include a stainless steel gear case and remain cost competitive to pumps with cast iron gear cases**

LC/LD Series

* Heavy duty castings with high efficiency design

- Standard stainless steel adapter
- 100% interchangeable with competing FPX/FP pumps

LF Series

* Front loading seal for easy maintenance

- Single or double seal options
- Standard stainless steel adapter
- 100% interchangeable with competing FPR pumps

SP Series

* Liquid ring pumps with self priming capability

- Ideally suited for CIP return; drum unloading; and handling products with entrained air
- 100% interchangeable with competing FZX pumps

ZL Series

* Rotary lobe pumps with unique front loading seal design for easy maintenance

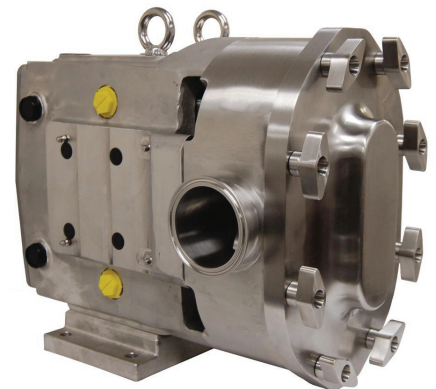

- Multiple rotor options including bi-wing, tri-lobe and multi-lobe
- Mechanical seal, o-ring and lip seal options
- Outstanding cleanability – EHEDG certified

C+ Series

* Improved shaft design with collar and impeller nut

- * Longer life for seals and backplates
- Hydraulically and dimensionally interchangeable with traditional C Series style pumps

Our expanded product line offers the same outstanding performance and reliability that we've demonstrated over the past 50 years. We'd like the opportunity

to introduce you to these new products while saving you money. We also offer a complete industrial line of pumps for your non-sanitary requirements.
