

# H.S. Crocker Co.

It's no accident H.S. Crocker Co., has been successfully operating since 1856.

H.S. Crocker is 100% Employee owned with participation at all levels through team driven production.

All our employees work together in our plant locations: Huntley, IL and Exton, PA, all locations adhere to strict standards of quality as prescribed by the Crosby Quality College and now advancing to be SQF Certified.

The Huntley facility, well known for Lidding structures, also produces: Push thru Foil for Blister Paks. Roll Stock for Blister Packing with special Heat Seal Coatings and various Specialty Printed Lid Solutions for a wide range of applications.

Printing on 9 and 10 color Flexographic presses from 13" - 45" with front and back print capabilities.

Regular USFDA, IL FDA and Pharmaceutical audits keep the Huntley facility on the cutting edge of traceability, which identifies every step in the production process. The Huntley plant is compliant with CGMP and HACCP guidelines.

H.S. Crocker Co. has developed several new non-foil lidding structures to seal various portions size containers and polymers. For years, customers have asked for a pre die-cut lid other than foil. Metal Detection, Microwaveable, Tear and Puncture Resistance are just a few of the advantages associated with these new materials.

**CUP LINE:** H.S. Crocker offers portion cups (thermoformed) in a wide variety of sizes and designs. You can develop your new cup at a very competitive cost.

**NEW PRODUCT LINE:** H.S. Crocker has both foil and non-foil lidding available in roll and die cut. Both Cups and Lids can be ordered to your specifications.

H.S. Crocker has positioned themselves as the LEADER in PRINTED LID SOLUTIONS

by applying their 150 years of experience towards today's markets. Through the addition of new product lines and redeveloping old lines. The continued efforts of our company is evident by the continual purchases of new and efficient equipment. A constant updating of equipment allows us to offer the best possible cost savings to our prospects and customer.

We consider the environment to be very important and this is why we have chosen to

sue water based inks and adhesives for over 20 years. We recycle the vast majority of what we produce in our plants in a concerted effort to be GREEN.
