

# Ampco Pumps Company

Did you know that only AMPCO offers the three most popular sanitary pump designs? Our AC/AC+ and LC/LF/SP centrifugal pumps and our ZP positive displacement pumps maintain the hydraulic and dimensional characteristics that end users require while incorporating valuable upgrades at no extra charge.

**\*\*New in 2012\*\***

## ZP3 Series – AMPCO’s new, truly CIPable pump

Complementing our complete ZP Series of positive displacement pumps, is the new ZP3

- All ZP3 pumps come with a stainless steel gear case, 17-4 shafts, and helical gears
- The ZP3 offers front-loading seals for ease of maintenance
- In-line cleanability without further modifications
- New rotor case design for maximum efficiency
- Tungsten carbide seal faces for longer life
- The entire gear case, including shafts, is identical to ZP2 style pumps with 100% parts interchangeability
- Existing ZP2 pumps (and our competitors’ similar pumps) can be upgraded to the ZP3 design with new rotors, new seals and re-machining the existing rotor case
- EHEDG certified

## ZP Series

- Most significantly, all new ZP Series pumps include a stainless steel gear case and remain cost competitive to pumps with cast iron gear cases
- The ZP1 and ZP2 pumps are dimensionally and hydraulically interchangeable with competing brands
- Both ZP1 and ZP2 models can be rebuilt with over-sized rotors to extend the pump’s useful life.
- The ZP Series was designed to include the most popular features of leading

pd pumps plus 17-4 shafts and helical gears

## LC/LD Series

- Heavy duty castings with high efficiency design
- Standard stainless steel adapter
- 100% interchangeable with competing FPX/FP pumps

## LF Series

- Improved, front loading seal for easy maintenance
- Single or double seal options
- Standard stainless steel adapter
- 100% interchangeable with competing FPR pumps

## SP Series

- Liquid ring pumps with self priming capability
- Ideally suited for CIP return; drum unloading; and handling products with entrained air
- 100% interchangeable with competing FZX pumps

## AL Series

- Rotary lobe pumps with unique front loading seal design for easy maintenance
- Mechanical seal, o-ring and lip seal options
- Outstanding cleanability

## C+ Series

- Improved shaft design with collar and impeller nut
- Longer life for seals and backplates
- Hydraulically and dimensionally interchangeable with traditional C Series style pumps

Our expanded product line offers the same outstanding performance and reliability that we’ve demonstrated over the past 50 years.
