To understand consumer values, attitudes and behaviors related to coffee and tea products, we have conducted consumer marketing researching concerning the latest coffee and tea trends. Our full staff of research and development experts have created custom coffee and tea formulations for many dairy applications including milk, smoothies, ice cream, yogurt, ready-to-drink beverages, and iced drinks.

Autocrat uses only an all-natural extraction method of obtaining coffee extract from roasted beans. In recent years we have invested millions of dollars and thousands of personnel hours working with equipment companies to perfect the operation of this process. Our method is unique and patently superior allowing our shelf-stable coffee extract to maintain flavor and vital essences.

As an approved FDA low-acid food plant, we have capabilities and experience with regular and organic coffee extracts, iced cappuccino bases, coffee syrups, espresso pieces, instant and freeze-dried coffee, as well as, premium black

tea, green tea, green and black tea, and black tea extracts. We can provide you with a wide variety of packaging options, and offer products that are Kosher and Organic certified.

Autocrat was established in 1895 in Rhode Island where it remains a fourth-generation family-operated business today. A major key to our continued ability to compete is our willingness to work

harder, be more proactive, and be personally attentive to the needs of our customers. Our aspiration is to be perceived as being “a pleasure to do business with” and assisting you in making the most of the growing coffee and tea market trends.
