

DSM Nutritional Products

A strong partner for a demanding market

Dairy product marketers and manufacturers need strong partners to meet the growing expectations for today's health-minded consumers. Increasingly, consumers continue to seek healthy alternatives to their favorite foods and beverages. They want fortified foods and beverages that deliver proven nutritional benefits, helping them look and feel their best. In the complex world of food and beverage fortification, only the strongest of partnerships can deliver a sustainable competitive edge. Choose the strongest partner to help deliver that advantage: DSM, a world leader in nutritional fortification for more than 70 years!

Broad product portfolio

DSM Nutritional Products is the world's premier nutritional ingredient manufacturer and solutions provider to producers of foods and beverages. Our extensive product portfolio includes user friendly formulations for all the fat and water soluble vitamins, carotenoids for coloration and fortification, vegetarian *life'sDHA* Omega-3 Fatty Acids & novel nutraceuticals. Utilizing our extensive resources, we keep our customers ahead of the ever-changing marketplace, anticipating customer needs as nutritional trends develop and customer demands evolve.

Quali®-Blends just for you

Quali®-Blends premixes provides dairy product manufacturers with the exact ingredients they need in homogenous, customized blends, which enable them to reduce the costs of quality control, warehousing and processing while assuring them of high-quality products and services.

Quali®-Blends premixes can include vitamins, carotenoids for nutrition and color, and an extensive range of "nutraceutical" ingredients, minerals, amino acids and natural extracts, which are formulated into customized dry and liquid premixes.

Unique INNOVATION portfolio

DSM's extensive portfolio of healthful ingredients for dairy-based products includes: ALL-Q® coenzyme Q10 with exceptional bioavailability; Teavigo®, a high-purity EGCG from green tea; Fabules®, a patented lipid system for weight management through satiety; resVida®, a high-potency, pure form of trans-resveratrol for healthy aging; *life'sDHA plus EPA* – the fishless fish oil – provides a vegetarian, fish-free source of DHA/EPA omega-3 fatty acids that can be easily incorporated into dairy products.

How can we health you?

DSM can help you get to market faster with appealing health solutions that work. At the forefront of nutritional science, we can help you stay ahead of scientific and market developments with nutritional solutions ideally suited for dairy products.
