

Delkor Systems, Inc.

For years Delkor (Minneapolis, MN) has focused much of its new product development on the rapidly changing needs of the cultured products market - with emphasis on yogurt packaging.

Delkor's newest innovation, the CL-1000 Case Packer is a state-of-the-art example of combining high speed capability with maximum versatility. Delkor's CL-1000 offers our customers:

- Packaging speeds up to 700 cpm.
- Multi-flavor as well as sleeved product.
- Standard corrugated cases as well as a full range of both Retail Ready and Shelf Ready package options.
- Precision tool-less change-over.
- In addition, Delkor's CL-1000 offers a unique ability to detect and eliminate both product and packaging material defects without stopping production.

It is through this type of innovation and new product development that Delkor is an international leader in yogurt packaging.
