

Reiser

For more than 50 years, Reiser has been a leading supplier of processing and packaging equipment to the cheese industry. During that time, the company has gained recognition for its high-quality equipment, innovative technology and outstanding service and support.

Vemag Cheese Shredder & Portioner

Reiser and Vemag have designed a variety of cheese shredding and portioning systems for all types of applications and production requirements. This solution is ideal for dispensing precise portions of shredded cheese onto pizza and prepared meals. The system combines a Vemag Portioner with a Cheese Shredder & Portioning attachment. Cheese blocks and scraps are loaded into the Vemag's hopper. The cheese is gently pumped to the Shredding & Portioning attachment, where it is precisely portioned, shredded and deposited directly onto the conveyed product - cleanly and evenly with no mess. Depositing consistent portions onto moving lines is easily accomplished.

Vemag Cheese Block Former

The innovative Vemag Cheese Block Forming system eliminates waste by repurposing cheese trim, ends, scraps and other pieces to produce cheese blocks. This solution combines a Vemag Stuffer with a Reiser-engineered cheese block forming and extruding attachment. The Vemag Cheese Block Former extrudes exact-weight cheese blocks with consistent dimensions and clean, uniform edges. This innovative solution eliminates waste by repurposing cheese trim, ends, scraps and other pieces to produce cheese blocks. A common application for this system is the production of cheddar cheese blocks for retail.

REISER

Supervac Vacuum Chamber Cheese Packaging

Supervac is a leading manufacturer of automatic belt vacuum chamber packaging machines, shrink tanks and dryers. Supervac packaging machines produce the best package seals in the industry. They feature a double biactive high-pressure sealing system. Heat and pressure are applied from above and below the packaging material to produce not just one seal, but two superior seals. A Supervac can easily handle all types of bags and packaging materials, including foil packaging. The sealing system virtually eliminates leakers, rework and returns.
